1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

⌚ 5 minutes

PROBLEM

Existing voting systems are vulnerable to fraud, such as voter impersonation and multiple voting. This can undermine the integrity of democratic elections and lead to a loss of public trust in the voting process.

Key rules of brainstorming

To run a smooth and productive session

- ➔ Stay in topic.
- ➔ Encourage wild ideas.
- ➔ Defer judgment.
- ➔ Listen to others.
- ➔ Go for volume.
- ➔ If possible, be visual.

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP
You can select a sticky note and hit the pencil icon to select it to start drawing.

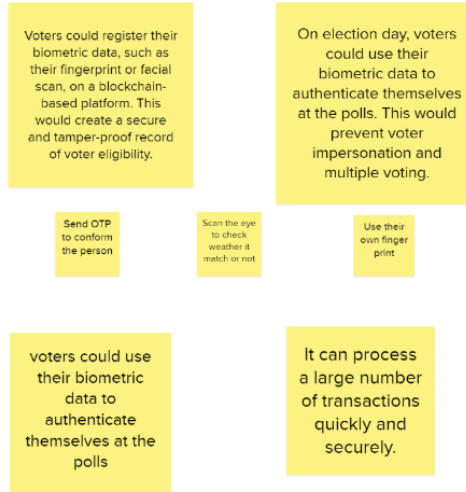

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

TIP
Add sub-cluster tags to sticky notes to show a cluster's sub-cluster, organize, and categorize important ideas as they arise within your mural.

20 minutes

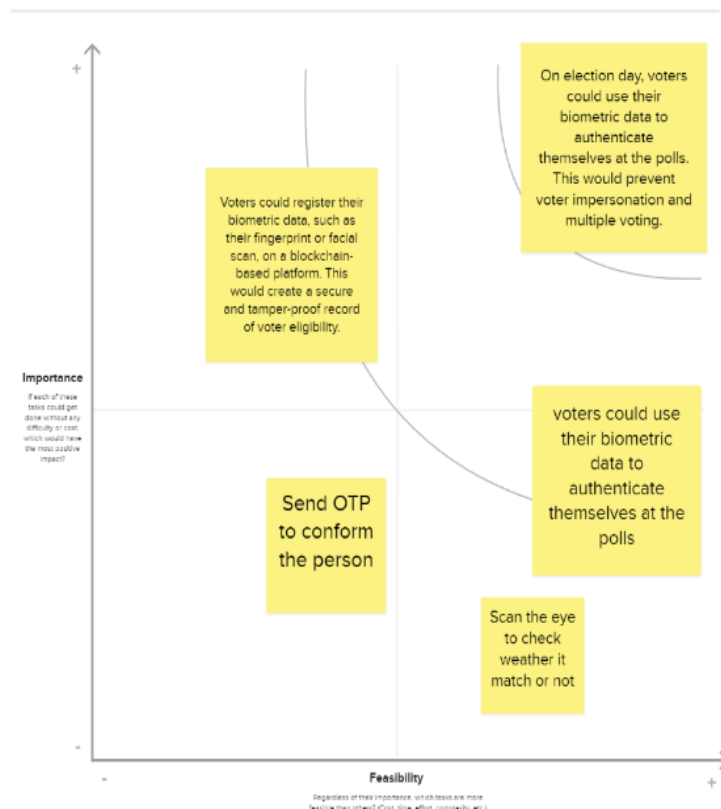

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

TIP
Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the enter/return key or the H key on the keyboard.
